

CREDIT RISK EXPOSURE DISCLOSURE

31 December 2024

1. DISCLOSURE OF QUALITATIVE INFORMATION REGARDING GENERAL CREDIT RISK (CRA)

SMBC Indonesia's business model is reflected in the parameters used to monitor inherent credit risk, namely the composition of the asset portfolio and the level of credit concentration, which the majority in balance sheet are credit account, with the largest credit composition of Bank stand alone and consolidated with Subsidiaries is in corporate credit and the economic sector is spreads which largest economic sector is in the manufacturing industry. In addition, in terms of the quality of the provision of funds and the adequacy of reserves for Bank stand alone, it is classified as good with Low risk, while for consolidated Bank with Subsidiaries continue to maintain the quality of provision of funds at a good level, including the ratio of non-performing loan. Likewise, the reserves for debtors who were previously given Covid 19 restructuring are maintained in accordance with applicable regulations. Regarding the strategy for providing funds and sources of providing funds for Bank stand alone, the risk is also considered Low, as indicated by consistant ratio of the Bank's asset and credit growth for the December 2024 period. As for external factors, on consolidated Bank with Subsidiaries, SMBC Indonesia is mainly affected by high inflation, changes in crude oil price, and rupiah depreciation. In addition, macroeconomic conditions such as declining people's purchasing power and middle-class population have been identified as being able to affect consumers' ability to make repayments.

In credit risk management, the Bank has a Credit Policy which is a guideline for implementing the credit process carried out by the Bank. SMBC Indonesia's credit policy refers to Financial Services Authority Regulation No. 42/ POJK.03/2017 concerning Obligations for Preparing and Implementing Credit or Financing Policies for Commercial Banks. The Bank always reviews policies and procedures in the credit sector periodically, as an effort by the bank to update changes in economic conditions, changes in regulations and/or business approaches.

Apart from establishing policies and procedures, the Bank also sets limits to ensure that credit risk exposure is in line with the Bank's risk appetite. These limits, among other things, include limits for authority to make credit decisions which are adjusted to the competence of the decision maker and the level of risk and ensure that there are no conflicts of interest in the credit process provided to customers.

The credit organization structure must ensure the separation of functions between the risk taking unit and the credit risk control unit. To support sound credit provision and the bank has included elements of internal control, the officials/parties involved in the credit risk management process consist of the Board of Commissioners, Directors, and work units that carry out functions related to credit risk management, including the Risk Management (SKMR), Risk Taking Unit, and Credit Administration and Operational Unit.

The internal control system at the Bank consists of Business units and supporting functions as Risk Taking Units and is assisted by Business Risk/ICR (Internal Control & Risk) as coordinator in risk management as the first line of defense; Risk Management (SKMR), Compliance and Legal, Finance & Planning and Human Resources as the second line of defense that supervises risk management and develops frameworks and policies; and Internal Audit (IA) as the third line of defense which works independently in assessing the effectiveness of risk management.

Periodic and continuous reporting on every functional activity related to credit risk bankwide to the BOD and BOC through committees. In carrying out their duties, the Board of Commissioners and the Board of Directors are assisted by several work units and committees. The committees that assist the Board of Directors in the credit process and credit portfolio monitoring are the Risk Management Committee, Credit Policy Committee and Credit Committee.

4. ADDITIONAL DISCLOSURES REGARDING THE QUALITY OF CREDIT ON ASSETS (CRB)

a. Qualitative Disclosure

Net Claims

Net claims are the carrying value of assets plus interest claims that have not been received (if any) after deducting the Allowance for Impairment Losses (CKPN) on the assets in accordance with financial accounting standards.

Past Due Bills

Past Due Bills are all bills that have been due more than 90 (ninety) days in arrears, both for principal payments and/or interest payments.

Impaired Bills

The Bank evaluates financial assets/groups of financial assets that undergo impairment at each balance sheet date. Bills that are impaired are determined based on financial assets/groups of financial assets for which there is objective evidence of impairment as a result of one or more events that occur after the initial recognition of the asset (adverse event). The adverse event has an impact on the estimation of future cash flows for a financial asset or group of financial assets that can be estimated accurately.

Allowance for Impairment Losses

The Bank has implemented PSAK 109 to estimate reserves for impairment losses on financial assets. This provision requires that loss reserves be recognized in the amount of expected credit losses (ECL 12 months) or expected credit losses over the life of the financial asset (ECL lifetime).

5. ADDITIONAL DISCLOSURES REGARDING THE TREATMENT OF TROUBLED ASSETS (CRB-A)

a. Qualitative Disclosure

Non-Performing Assets

Asset classification must be carried out for earning assets and non-earning assets. In principle, the provisions regarding asset quality follow the provisions stipulated in Financial Services Authority Regulation No. 40/POJK.03/2019 concerning Assessment of Commercial Bank Asset Quality. Determination of credit quality for the retail and SME segments with limit below 5 billion based on promptness in repayment. Meanwhile, for the SME segment with limit above 5 billion, commercial and corporate are based on 3 pillar assessment factors.

Credit Restructuring

In order to minimize credit losses, the Bank is considering credit restructuring for borrowers who undergo difficulties in fulfilling their obligations but are still able to cooperate, as long as this provides benefits for both parties.

Credit restructuring is an remedial effort carried out by the Bank in credit activities for debtors who are having difficulty fulfilling their obligations.

b. Quantitative Disclosure

6. QUALITATIVE DISCLOSURES RELATED TO MRK TECHNIQUES (CRC)

In calculating RWA for Credit Risk, the Bank uses a standard approach in accordance with applicable regulations, namely OJK Circular Letter No.24/SEOJK.03/2021 concerning Guidelines for Calculating Weighted Assets According to Credit Risk Using the Standard Approach for Commercial Banks which is calculated based on type of portfolio category and risk weight. In this approach, the existence of collateral, guarantees, or credit insurance can be recognized as a credit risk mitigation technique in accordance with regulatory provisions.

11. QUALITATIVE DISCLOSURE OF COUNTERPARTY CREDIT RISK (CCRA)

Counterparty Credit Risk Disclosure

Counterparty credit risk for the Bank is the risk arising from the counterparty's failure to repay a contract with the Bank which causes potential losses for the Bank in replacing the contract.

Counterparty credit risk generally arises from derivatives and repo/reverse repo transactions. Mitigation of counterparty credit risk is carried out in accordance with the regulation, namely by recognizing the existence of collateral, including cash, cash equivalents, government and central bank securities, securities other than those issued by the government and central bank that meet certain rating criteria, and supplemented by the Bank's policy for managing credit risk from counterparties.
